

Computer Services

LiveOak Computer Services offer professional on-site computer and networking solutions for small business owners and residential customers. Our on-site support services include maintenance, networking, troubleshooting, upgrades and more for users at their home or business.

On-Site Service & Repair

Do you dread the hassle of disassembling your PC and carrying it to a repair shop? Waiting a week or more to get it back? Wouldn't you rather have someone come to you to do the work? LiveOak technicians can make this process painless and quick by coming to your residence or business. Simply call us to make an appointment that fits your schedule. We are available six days a week for your convenience.

Service & Support

Our technical specialists consist of computer engineers and computer scientists that each have a minimum of 15 years experience in a host of high-tech computer skills.

We team their training and experience with customer support that help you succeed.

Services we provide:

- Networking
- Computer & Network Security
- Software & Operating System Troubleshooting
- Computer Forensics
- Virus & Spyware Detection & Removal
- Preventative Maintenance
- Data Backup
- Upgrades

Call us if a service you need is not listed.

Data Recovery

LiveOak Professional Data Recovery was started with one simple goal — to provide cost-effective data recovery with the customer in mind. We want to make it possible for everyone to be able to afford data recovery, not just large companies. Data is important to everyone that owns a computer, and if disaster strikes, everyone should be able to get their data back. LiveOak's data recovery specialists each have a minimum of 16 years of experience in data recovery.

We continue to improve and enhance our methodologies and techniques for ever-changing technology. We deliver fast and reliable data recovery services for storage media in virtually all computers, devices, and environments.

Has Your Data Become Inaccessible?

Data recovery is the process of retrieving deleted or inaccessible data from failed storage media such as hard disk drives, removable media, and optical devices.

Data can become inaccessible due to a software problem, computer virus, mechanical malfunction, or a deliberate human act.

The most valuable asset of your computer is your data. LiveOak Professional Data

Recovery Services offer a cost-effective method for retrieving your important data. Let us help you retrieve your irreplaceable data.

No Evaluation Fee

Your media will be evaluated free of charge to determine exactly what is wrong. After we have evaluated the media and know what steps are needed to recover your data, you will be contacted with a price quote.

Our services are guaranteed not to exceed the cost of your quote. Our experience has shown that when working on computers, repairs sometimes take longer than expected. But once

we have completed our evaluation and a quote is given, the quoted price will not change unless a reduction in pricing is necessary. If additional problems are found, you will be given a separate quote for the additional services needed.

We will not proceed with any recovery efforts without the customer's approval of our quote.

No Data Recovered, No Charge

We offer very competitive pricing, starting as low as \$130, but we do not stop there. If for any reason we are unable to succeed in the recovery of your data, you will not be charged. The only cost you will incur will be the cost of shipping the media to us, but we will pay to have your media sent back to you. Please check out our web site for more information.
